Hem-York Daily Ciwes.

THE FUGITIVE SLAVE CASE IN CIN-CINNATI.

Examination before the United States Commissioner-The Claim of Freedom-Dis-

From the Cincinnati Columbian, Jan. 31. The party of fugitive slaves, consisting of two men, two women and three children, were, resterday merning, brought in custedy by the United States Marshal before United States Commissioner

Pendery.
Wall & Finnell, of Covington, and Col. Chambers, of Cincinnati, appeared for the claimants, Mr. Marshall and Mr. Wood. Messrs. Joliffe & Citchell ap-

peared for the defendants.

The two men, Simon Garner and Robert Garner, and the closst woman, Mary Garner, wife of Simon, are claimed by Mr. Marshall. Margaret Garner,

are claimed by Mr. Marshall. Margaret Garner, against whom the Coroner's jury on Tuesday evening found a verdict of nurder, with her three remaining children, are claimed by Mr. Gaines.

On the opening of the Court, Mr. Jolific applied for a postponement that the defence might have time to obtain witnesses. By those witnesses he expected to prove that the woman Mary Garner, had frequently been over to this city with the knowledge, consent and command of her alleged owners, for the purpose of marketing, etc.; that the young man, Robert Garner, three years ago, was in this city employed for four days driving hogs, and, though he feared the evidence might not prove so clear, he expected to prove similar facts of the other adult parties. He asked the Court for time to obtain winesses.

Col. Chambers opposed the application and insist-

Col. Chambers opposed the application and insisted that the examination should proceed. He expeeted every possible obstruction.

Mr. Joliffe explained that the writ of habeas corpus. had intercepted the proceedings; he had nover seen his clients until the previous afternoon. He expected the same courtesy as would be granted in a case of \$10,060 in money or an estate.

Col. Chambers insisted on a professional show,

in writing, of the names of the witnesses, and what was expected to be proved by them. A considerable time was occupied while Mr. Joliffo took the affidavits of his clients. The allegations in the affidavit of the elder woman, Mary Garner, are

About five years ago, Cos. Warrington, of Covington, hired her of James Marshall, who claims her as his slave. She heard Warrington ask Marshall is his slave. She heard 'Warrington ask Marshall it he was afraid she would run away. Marshall replied that she might pass and repass to Cincinnati whenever she pleased; he had no fear of her running away. She lived in Covington with Warrington more than twelve months; during that time she frequently came to Cincinnati to attend the Methodist Episcopal Church, of which she is a member. She never concessed her coming from Warrington or any other nerson and War. ing from Warrington or any other, person, and Warrington was frequently aware of her passage to Cincinnati; she never heard of any objection to her crossing the river; she also sometimes came to market in Cheinnati with Warrington; at other times with both his wife and sister; Benjamin Con-nolly, Mrs. Warrington's brother, knows of her so passing; also, Mr. Keneday, of the Covington for-ry-boat. Having been in jail, without the means of obtaining witnesses, she prays the Court to protect

her in her rights.

On the application of Col. Chambers, Mr. Pollock was appointed Reporter for the Court. It was also decided that the case involving Mr. Marshall's claim of ownership should be first examined. The affidavit of Robert Garner was then read by Mr. Jolifie. It alleges that five weeks before last Christmas, Thomas Mayshall, son of Marshall who claims to be their owner, brought him over to Cinciains to be their owner, brought him over to can cinnati, and kept him here about five hours. About four years ago, Wm. Timberlake, a store-keeper in Covington, had him in hire, and brought him over to Ohio to measure wheat; he was then in Ohio from Monday to Saturday. James Marshall, four years since, brought him to this side to drive hogs, and he then staid on the Ohio side four days and five nights. He was also bired to Poor, of Covington, and by his directions carried a trunk to Cincinnati. Deponent asks time to obtain witnesses in proof of these facts.

Col. Chambers depied that any right of freedom accrued to a slave by his owner bringing him over to Obio, when the slave volunturily returned. Mr. Joliffe contended that a slave brought to the soil of Obio by his owner, or the agent of the

The affidavit of Margaret Gamer was then read: the antitate of imagnet carrier was then related it alleges that John Gaines, who claims her as his slave, brought her when she was a small girl to Ohio, to nurse his daughter, and that she remained in Cincinnati until the evening. She expects to prove this fact by Mr. Gaines, now in Oregon, and asks a continuance until his evidence can be obtained. She also deposes that her children William.

owner, became free, and that freedom no after act

asks a continuance until his evidence can be obtained. She also deposes that her children, William, Samuel and Seilla, were born after her having been thus brought into Onio.

In the case of Mary Garner, the Commissioner said that the case ought to be carefully considered, as it was not an ordinary one. The question in hand is not one of dellars and cents, but of liberty. A reasonable time to bring in the stinency is asked for. The points rused in the affidavits and the genuineness of the statements there raised, he was not then called upon now to declare, but with respect to the time requested, precedent, as well as his own to the time requested, precedent, as well as his own feelings, would govern him; the Court would do what was just and right.

The point raised by the defence, on behalf of Mary

Garner, was an important one, and the Court would consider its relation to the other cases, it was a question that ought to be fully and fairly investigated. The Court adjourned until 9 o'clock this morning, the prisoners in the mountime being remanded into the custody of the United States Mar-

The position of the case at the adjournment was this: Mr. Volifie, the counsel for the defence, claimed that any slave passing into the Free State of Ohio, with the consent of his or her owner, or his agent, which an individual is who hires a slave, becomes free by the act. The freedom of an individual once gained can never be lost, except in case of punish-

This principle of the perpetuity of freedom is sanctioned by custom, the spirit of our laws, the laws of civilized nations, and the Constitution of this State, which instrument declares that no involuntary servitude, except for crime, shall-crist within the borders of Ohio. On this ground Mr. Joliffe contends that Mary Garner, Robert Garner,

and Margaret Gerner, are all free persons, and were so when arrested by the U. S. Marghal. In opposition to this, Col. Chambers laid down the position that whatever rights a slave night acquire by entering, with his owner's knowledge and consent, a Free State, they were forfeited when he voluntarily returned to Slavery. This position the consel for the claimants did not argue.

Considerable dissatisfaction was expressed outside of the Court by several colored persons, toth male and female, because an officer stationed at the door refused to permit any of them to enter. At the adjournment of Court a considerable police force was ready to essent the digitives to jail, for whem an original ways, writing the deep. whom an omnibusives waiting at the door. A considerable crowd collected outside, and when the officers attempted to clear a road to the volide, considerable opposition was shown. Some senting and fighting took place, and one or two parties were taken to the Hammond-street Station house by the officers, apparently for sire purpose of creating a diversion. Four or five deceptly deceed colored women in the crowd seemed the most bent upon resistance and opposition. When a read was deared to the omnibus, the fugitives were conducted inside, the police mounted the steps and the top, and a number surrounced it; then the prisoners were taken off. It is evident that much irritable facility exists, but the disposition exinced by Commissioner Pendery, to set fairly toward all parties, and to view the question in a kindly light coward the fugitives and their friends while he followed the fugitives. and their friends, while he institutly discharges the aworn duties of his office, will doubtless assist in

alloying agitation. NEW-YORK CITY.

POROUS PLEXIBLE PLASTER

FAST SUPERSEDING ALL OTHERS. T. ALLOCK & Co., Brandreth Building, New-York. Local pain often arises from a fullness or partial congestion of the capillaries or small blood vessels terminating on the skin. To relieve, and often cure at once excruciating pains, you have merely to use one of Dr. Atloock's Plasters. Thus, backache, a dull heavy feeling at the bottom of the back, often in connection with Piles deep-scated pains in the leff side, supposed to proceed from an incipient affection of the heart; rheumatic pains, sprains, bruises and spasmodic pains of the muscles of the bowels... all these troubles are greatly relieved by this celebrated Plaster, which proves itself the required local excitant, without producing often debility in the

COMPOSITION. India rubber, myrrb, and other choice gums and sences of the vegetable kingdom; are the material ingredients of these celebrated plasters. They are to all other medicated plasters what traveling by railroad and steamboat is, in our day, to the stagecoach and sloop-going of fifty years ago. While they are possessed of all the soothing and warming every other plaster of the United States Dispensatory, they are without many of their inconveniences. In the language of one who has experienced much benefit from their application in a chronic disease of the kidney-" They stick loser than a brother, and do not run like a false

The idea of medicating India rubber is in consonance with the spirit of improvement which stamps the age in which we live. There was always something repulsive in the Eurgundy pitch pleater; it might be useful, but you never forget, the unpleasant addition to your skin. The pleaters of Mr. Arroom are quite flexible, and yield to every motion of the body; this quality alone, all others being equal, 100 %. V. Cen. R...opg 804 200 %.

would command for them a large chare of public patronage.

They have already become favorably known in England, France, Holland, and in the city of Hamburg; in Rio de Janoiro, in Rio Grand do Sul, in the Brazils, in the city of Assumption, inParaguay; in Montevideo, in Lima and Bogota; their sale has become great in the latter city, in San Francisco and at Valparaiso; in every country where they have been introduced, they have proved a blessing to the afflicted. Merchants can at once perceive their importance as an article of commerce.

DR. I. T. HENDERSON'S LETTER. FABNVILLE, La., March 8, 1850.

Dr. T. Allcock-Sir: I have been suffering under a severe attack of neuralgic disease of my bowels for years, with hypertrophy of the heart, and have tried everything known to the practice of medicine from the very best M. D.'s; but truth prompts me to say that your plasters have given me more permanent relief than anything else I have used, and I believe will produce a perfect cure. I am wenderfully pleased with the counter-irritant effect of your plaster, for it is produced in such a mild and gradual way, as well as the invogorating action it gives to the capillary circulation around the parts to which they are applied, with the great nervous sedative in fluence they exert upon all nervous diseases.

In conclusion, permit me to say, that I have had experience of the qualities of the plasters heretofore in use, but must place yours at the head of them all. Every medical man who becomes acquainted with them will assuredly recommend his patients to use no other than the Medicated India Rubber Plaster of Dr. Allcock. Yours very truly,

I. T. HENDERSON, M. D. A man came into the store a few days ago, and said he had bought one of a druggist in South America, and that it cured him of a lame shoulder, when everything else had failed to help him; that he must always have a few on hand-that he would not begrudge fifty dollars for one, so valuable did he esteem them. He bought two dozen of them. A female was taken suddenly with pain in the

back, just above the kidneys; liniment and cupping were used, but she could not stir without screaming out. Her doctor bethought himself of Allicock's plasters, and had one placed on the part. In one hour the pain entirely left her and she walked quite well, being only weak from the cupping and the sickness in consequence of the great pain experienced. She had no return.

The Plasters are sold at 25 cents each, by T. ALLCOCK & CO., Brandreth Building. At No. 296 Bowery and No. 241 Hudson-street, and by all druggists in the City and Country.

[Advertisement.] PURDY'S NATIONAL THEATRE.—To-night will be produced at this house a new grand historical Irish Drama, from the pen of that successful author, Mr. C. W. Taylor, entitled the "Invasion of Ireland, or the Oath of MacMurrough." The Managor, with his usual energy and liberality, has spared neither pains nor expense in placing it effectively upon the stage. The Pantomime of "Asphodel" will be performed with it all the week.

[Advertisen ent.] ET A New Class in Phrenology will be formed on Tuesday evening next at the Cabinet, where gen tlemen and ladies may obtain a practical knowledge of this most useful and interesting science. For particulars, inquire of Fowler and Wells, No. 308

fAdvertisement. PHERMOLOGY.-Professional examinations, with charts and written descriptions of character, given daily, at Yowler and Wells, 308 Broadway. [Advertmement.]

MONDAY, Feb. 4-A. M.

The mails by the steamer Arabia, at Boston from Liverpool Jan. 19, were delivered at our Post Office yesterday afternoon. The newspaper and circular accounts, as well as the information which we derive from our private correspondents, and from passengers who came out in this steamer, greatly strengthen the telegraphic summary from Halifax, that an early Peace is relied upon from the acceptance by Russia of the Austrian ultimatum. The Vienna official dispatch to the French Minister of Foreign Affairs, which was received and made public at Paris on Thursday, Jan. 17, is expressed in stronger and more decided terms than that of Sir Hamilton Seymour to the British Government. And so are the newspaper dispatches from Berlin and Vienna. The terms employed in the communication to the French Government are, that the terms were accepted at St. Petersburg "pure and simple," as the preliminaries of Peace. The construction of Sir H. Seymour's dispatch is that they were accepted as the basis of negotiations. The doubts to which the latter gave rise, after the first flash of excitement on the London Stock Exchange, as to the good faith of Russia-recollecting that she had defeated the end of a somewhat similar acceptance of terms last Winter-produced a reaction in the Funds of about 1/201/4 P cent. But we understand that telegraphic advices from London to Saturday, 19th January, were received yesterday to the effect that Consols had again touched 90 P cent. The editorial commentaries on the news in the London papers draw the distinction between the proceeding last Winter and the terms of the present proposition-while admitting that there is sufficient doubt of the result, to induce no relaxation on the part of the English Government in preparing vigorously for the campaign of 1856. In Paris the extreme rise in the Rente was about 5 B cent. from Wednesday, or 6 B cent. from the lowest point by the previous steamer, say 68.50 for the Threes, against 62.45. The reaction was to 67, followed by another advance to 67.75. The shares of the Cridit Mobilier was to 1,410 francs; 500 francs being the par, with the utmost activity in Railway securities, of which it is stated no less than 350 millions of dollars have been added to the Empire since the coup d'dat of Louis Napoleon in December, 1851. The advances upon these by the Bank of France amounted, two years afterwards, to \$69,440,000. The French budget for 1856 has been reported to the Emperor by the Minister of Finance. It shows a high degree of prosperity in the ordinary trade revenues, and available extraordinary resources for the war expenditures of 1856, in

The English Bank return to the 12th January shows a further reduction of coin of \$595,000. The receipts of Australian Gold between the 12th and 19th at London were \$1,675,000. No change was made at the meeting of the Directors on Thursday, 17th, in the rate of discount. The subject of one-pound notes had been fully discussed in financial circles in the early part of the week, preyious to the Peace news. The Money market continued active; for Discounts 6 % cent.; on Stocks 5 % cent. The Discounts of the Bank which ran out between the 5th and 12th and were not renewed amounted to \$12,280,000. The amount advanced on Government Securities increased

The Stock Exchange at London was partially trengthened by the rumor of Bank relief through the issue of £1 notes, and like that of Paris, gained

some degree of firmness before the important advices made public on Thursday morning. The following table will show the fluctuations in Consols since the 11th January: | Per Money | Per Account | Pe

Our circular advices in regard to Cotton and Grain at Liverpool correspond with the Telegraphic summary. The best informed among them about Breadstuffe say that the market was brought to a complete stand on Friday. The tenor of the Cotton news authorized the belief that on the receipt of the diminished estimates of the crop on this side which went out week before last, a further advance will be realized without some unlooked-for contradiction of the political news from Vienna. Of American Stocks, the following brief circular from Mr. SATTERTHWAITE presents the best view. It will not escape remark that no allusion is made to the President's Message, which, with the most warlike construction that could be put upon it, scarcely influenced the English Funds an eighth & cent. It was made

public in London on Monday, Jan. 14: "Since our last the intelligence of the acceptance by Russia of the terms of peace offered by the Allies has produced an extraordinary change in Consols and all English and French Securities. The offect of peace operates so directly on our own Stocks, that attention has hitherto been almost exclusively directed to them, and we have very little activity to note in American Securities. The sellers at low prices have, however, in most cases withdrawn their orders, or raised their limits to prices more in accordance with the actual New-York rates. The Bonds of the Illinois Central Railroad are in strong request at higher rates with very few offering. The Shares have been done at 434, and close buyers

Under the general head of the London Stock Exchange we have copied in another place the reports of the leading Money writers on the excitement and prices which followed the first announce-

ment of the Peace news. The official Custom-House returns of the Foreign Trade at the port of New-York for the month of January are more decidedly favorable to a moderate Importation than was indicated by the informal weekly returns for the four weeks heretofore presented. The totals for the month are:

The Goods withdrawn from Public Store during the month amounted to \$2,345,618, or \$720,364 more than went into Store-so that the total of Goods marketed amount to \$16,244,061. There was entered during the month, not included in the above, Foreign Specie and Bullion to the value of £54,864.

The Exports of the month of January were Foreign Reëxported. 23,541 In Specie. 104,834 We annex our usual monthly Import, Export and California Gold Tables, commencing with

the current Treasury Year, July 1, 1855, and com-

paring with the corresponding seven months of the

previous Treasury Year. It will be noticed that the Import list, although considerably increased since October, foots up, in the aggregate, only \$6,406,000, or, about 6 7 cent. ahead of last year. while the Exports of Domestic Produce show an increase of \$10,643,000, and the Specie Export a decrease of \$10,480,000. If to the increase at this port in Domestic Produce, we add an increase in Cotton from the Southern ports of the new crop, since 1st of September, of 332,000 bales, the seven months of the Treasury Year present-without reckoning the large increase in Grain and Flour from Philadelphia, Baltimore, &c .- a difference of about Twen-TY-FOUR MILLIONS OF DOLLARS, in favor of the present year, with a reasonable prospect that it

The course of the Stock Market the past week was characterized by considerable fluctuations. The first three days prices were pretty steadily supported, though on generally light transactions. On Wednesday afternoon and Thursday the market manifested a disposition to yield under the continued dullness and the vague apprehension of bad news by the Arabia. The consequence was that on Friday morning, when the accounts from Europe were made public, and proved the very reverse of the anticipations indulged by some parties in the Street, the reaction was sudden and rapid, resulting in a business of over three millions dollars, at nominal par value, nearly one-half of which was done by a single seller. The extreme rise was 3 & cent. The established advance about 2 per cent., which was maintained, with slight fluctuations, throughout the day on Saturday, although under less excitement and diminished sales. The following is a

partial view of the COMPARATIVE STOCK MOVEMENT OF THE WEEK.

The supply of Money to the Brokers was easy throughout the week, and at the close the sums offering on temporary loan were larger than we have remarked since the New-Year. Discounts, however, continue to rule, outside of Bank, at from 8 to 10 P cent. Foreign Bills advanced K F cent, for the packet on Saturday, with a demand on the regular Bankers somewhat improved from the falling off in the supply of transient signatures. Southern and Canada Bank signatures were done at 108% (%; regular Bankers 108) (@ 108%; light sales at the extreme fraction. On Paris, the terms much the same as by the previous packet, the range 5.25@5.20. The Bullion Brokers did nothing in Gold for export. The Baltic took \$35,000 in Maxican Silver. The California deliveries of the week amounted to \$1,524,446. A shipment of \$500,000 in Gold went to New-Orleans at the close of the week, and some smaller sums were transmitted South. The regular balance in the Sub-Treasury on Saturday afterneon stood \$1,787,535 against \$2,150,925 at the close of the previous week. The total of Specie held by the Government office in this City, for all accounts, including the bullion fund, is \$12.181.092 against \$11,826,261 on Saturday week. The Bank Statement to be made up this afternoon is likely to be increased, from the above movements, in the line of Specie. The last reserve was \$12,780,059. The General Merchandise Import of the week, additional to the Dry Goods table published on Saturday, is \$1,147,149. The following is a comparative statement of the exports of Domestic Produce: and Miscellaueous Goods, for the week, and the corresponding week

Mr. Albert H. Nicolay's regular semiweekly auction sale of Stocks and Bonds will take place this day, (Monday,) at 121/2 o'clock, at the Merchants' Exchange. On the list will be found some good Railroad stocks.

Black River and Utica Road. From the Utica Herald, Jan. 25. The annual meeting of the stockholders of this Company was held at its office in this city yester-day morning; and Dr. T. Pomerox presided, and Ellis H. Roberts was Secretary. Silas D. Childs and Willard Crafts, of Utica,

and JAMES. JACKEON, of Leyden, acted as Inspectors of Election. While the election was progress.

Receipts from Jan. 1, 1855, to Jan. 1, 1856, on 16 miles of road to Trenton, excepting 13 days run to Boonville in December.

To Sept. 30, 1855, there had been run by passenger trains.

To Sept. 30, 1855, there had been run by other trains.

without resort to the sale of bonds, except the \$10,-000 above referred to. The road is now in running order to Boonville, and it has become necessary to raise means to pay the floating debt. This must be done by the sale of bonds, and before offering them in the market at large and order to be a sale of bonds. in the market at large and suffering the loss on them which attends the sale of the best Railroad scutifies at the present time, the Directors desired to offer them to stockholders who are interested in their realizing as near as possible what they are

These bonds are seven & cent. bonds, the in Frest payable in New-York semi-annually, and secured by a first mortgage on the whole road and its ap-purtenances. For safety of investment they are equal to any railread bonds now offered. The stock-holders were urged to protect their own interests and avoid the necessity of sacrificing these bonds by taking among themselves, at a fair rave, enough to enable the Directors to pay the floating debt. All the votes cast for Directors and Inspectors

All the votes east for Directors and Inspectors were for the present incumbents, who are of course reclected, as follows:

Directed, as follows:

Directed, as follows:

Directed, as follows:

Directed, John Butterfield, Theodore S. Parton, Spencer Kellogg, Samuel Farwell, James S. Lynch, William H. Ferry, Martin Hart, Benjamin F. Ray, Utica; William Hieby, Boonville; Ela Merriam, Levden; Anthony W. Collins, Turin; Anson Ranney, Theresa; Elbirge G. Merrick, Clayton.

INSPECTORS OF ELECTION—Silas D. Childs, Willard Crafts, Utica; James S. Jackson, Levden.

At a meeting of Directors, held after the election, the previous officers were elected throughout.

No project which the immense and increasing business of Lake Outario and Canada has originated, has a fairer promise than the Black River and Utica Railroad. It was commenced in 1852, with a two-fold design; first, to affond to the natural and industrial wealth of Northern Oneida and Lewis Coundustrial wealth of Northern Oneida and Lewis Counties a direct communication with market; and second, to provide a new avenue for the overwhelming business of the Lakes and Canada.

The wonderful increase of business in Canada and on the lakes, and between Canada and the States, since the enterprise was originated, is a most substantial argument in favor of the early completion of the read. It is the opinion of eminent gentlemen in Carada, who have bestowed much attention on this subject, that the road, once brought to the St. Lawrence or the lake, will receive more business than it can possibly do. And in this connection an extract from the report of the Secretary of the Treasury on the commerce and navigation of the United States for the year ending June 30, 1855, which has been quoted by the Committee of the New-York Chamber of Commerce, to whom was referred the subject of a more perfect reciprocity between the British Provinces and the United States, way be appropriately introduced. The report gives may be appropriately introduced. The report gives the following figures:
Export of Domestic Produce to Canada......\$3,956,761 Export of Foreign Produce to Canada 8,769,580

Making the value of exports and imports growing out of the trade with Canada......\$20,902,658 Mr. P. T. Barnun's Money Treubles. From the Hartford Courant.

BARNUM proposes to give \$100,000 to be released from his indorsements and acceptances, and the creditors propose to release him if he will rolinquish all his mortgages and pay \$160,000. The creditors pro-pose to make a new Company, with a capital of \$500,600, made up of the paper of the old Company. There is a large amount of material which is of little value except to be worked up into clocks, and it is said that there is now a large demand and the it is said that there is new a large demand, and the business with economy can be made good. It is believed by those who say they know, that if this proposition is carried out, all will get their pay. The Jerome Clock Company had some ten or fifteen agencies in different parts of the world, which is the cause of their failure. We hear of some failures in Bristol growing out

of the Jerome suspension. Imports at Boston. Bosros, Saturday, Feb. 2.
The following is a statement of the Imports of Foreign Goods at this port for the week ending Feb. 1: Molasses. Other articles.

Markets by Telegraph. NEW-OBLEANS, Saturday, Pob. 2. COTTON firmer. Sales to-day 10,000 bales, at Se, for middling. Sugar 7%c. Molasses 34%c. Mess Pork \$16.50.

PROVIDENCE, Saturday, Feb. 2. COTTON—Demand good, with sales for the week of 4.000 bales. Wool.—The advance has been fully sustained, with a good demand. Sales of the week 125,100 bs. PRINTING CLOTHS—Sales of the week 39,220 pieces.

CHARLESTON, Friday, Feb. 1. The advices by the Arabia have completely unsettled our Cotton market, and prices are very irregular. Quotations are advanced Mc.@%c. The sales to day foots up 2,000 bales.

Charleston Cotton Market.
